## Radiosvallet – Student Radio

At the beginning of 2020, a radio station was started at Mid Sweden University with the help of the student union. Under the name Radiosvallet, students broadcast radio every Sunday. During the first semester, there were segments about Timrå IK, interviews with screenwriters of major films, and local musicians. And of course, a lot of fun chatter as well!

Radiosvallet was created to give students the opportunity to learn more about radio and how broadcasting works. This not only better prepares us for entering the job market, but also gives us a chance to create something of our own and have fun. Each week, our editorial team finds new topics to talk about, both serious and lighthearted. Here, you get information about the city's nightlife, what's happening at the university, helpful student life tips, and learn how to navigate Sundsvall.

## Mitten – A Student Newspaper by and for Mid Sweden University Students

In the spring semester of 2025, a group of students at the university began work to once again give Sundsvall's campus a student newspaper and provide students with information about their university as well as a forum for opinions.

Even though a dedicated team stands behind the first issue of Mitten, published in autumn 2025, we cannot manage it alone in the long term. We believe that everyone, regardless of program affiliation, has something to contribute. This could be editing, writing opinion pieces, proofreading, photography, or maybe even a poem. You can contribute in any way, big or small. Think "by and for" students if that appeals to you.

So if you have been waiting for a student newspaper to get involved with – reach out, and you can already contribute to the next issue.
